In Connection With the American Sheet Steel Co. Strike This Will Make 50,000 Strikers.

President Shaffer, of the Amalgamated Association, Says It Will Be a Fight to the Death and One to Be Remembered.

Pittsburgh, Pa., July 1 .- President J. T. Shaffer, of the Amalgamated Association of Iron, Steel and Tin Workers, issued an order calling out all union employes of the various mills of the American Steel Hoop Co., known as the hoop trust. It is estimated that 15,000 men are subject to the call, which, in connection with the big strike of the American Sheet Steel Co., ordered by President Shaffer Saturday, will affect 50,000 men. President Shaffer said Sunday

The impression that only the mills of the American Sheet Steel Co. arc affected by the decision of Saturday is a mistake. The workmen of all mills in the American Steel Hoop Co. are interested, and will be officially notified Monday morning that the scale has not been signed, and that they will quit work. To the well or ganized mills this notice will not be necessary, as the men will have watched the situation carefully, buwhat is known as open mills, where union men have been allowed to work side by side with the non-union men is where we have to move. Union men must walk out of these oper mills in the hoop trust.

Strikers Have Ample Funds.

"The open mills to be notified are one at Hollidaysburg, Pa., three at Pittsburgh, and one at Monessen. The organized mills which will close or our call are the upper and lower millat Youngstown, O., Pomeroy, O. Sharon, Pa., Girard, Pa., Warren, Po. Greenville, Pa. This, I believe, wilbring the number of men affected up to 50,000.

"It is a matter of regret that the issue has been forced, but it nov looks as though it will be a fight to the death," continued Mr. Shaffer. "The Amalgamated association is not unprepared for it. We have not had a general strike for many years, and in that time we have not been idle. We have funds, and will use them. Right here, I want to correct an impression which has been given out that no benefits will be paid strikers until two months have elapsed. The Amalgamated association will begin at once to take care of its people." Mr. Shaffer concluded his talk by

"I will say now what I said to Mr. Smith, general manager of the Sheet Steel Co., in the conference. I said if it is to be a strike we will make it one to be remembered. The officials now dealing with us have but little idea of the extent to which this strike will go once it is on."

THE MINERS' STRIKE.

President of the Union at Thacker, W. Va., and Nine Others Placed Under Arrest.

Thacker, W. Va., July 1.-Charles Burke, ringleader of the striking miners and president of the local union of United Mine Workers of America. was arrested at noon Sunday by Deputy United States Marshal Hufford and Detective F. T. Folts, and taken to Parkersburg on Sunday afternoon train to appear before Judge Jackson for tearing down the notices of injunction granted by Judge Jackson. The nine strikers arrested Sunday morning in Kentucky were lodged in jail at Williamson to await action of the Kentucky courts. These arrests have virtually broken the backbone of the strike.

During the night Detective T. L. Folts, assisted by John Justice, deputy United States marshal, and a posse of six men, went to Kentucky side of Tug river, captured the following nine strikers, who have been terrorizing the miners on the West Virginia side for the past ten days by shooting at all who could not give the proper strikers' sign as they passed and repassed along the railroad: Nelson Daniels, Sam Daniels, Ballard Smith, Chas. Smith, Andy Blackburn, Richard Reynolds, Eph Dalton, Sam Billiter and Chas. Worthington, They were all brought to this place, and are under heavy guard, waiting for a train to take them before a Kentucky judge, who will remand them to Judge Jackson at Parkersburg, this

They were surpried in their sleep, with their Winchesters under their pillows, and surrendered with but little resistance. Even their guard

was captured asleep on duty. Parisian Paper Suspends.

Reports to Weather Bureau Show Remarkable High Temperature Throughout the Country.

Washington, July 1.-Intense heat prevailed here all day and far into the night. The sun shone in a cloudless sky all day, and there was scarcely a breath of air. During the afternoon the temperature at the weather bureau was 98 degrees, and it maintained a high record throughout the evening.

Reports to the weather bureau from points throughout the hot wave all show remarkably high temperatures generally, with little or no rainfall, and with poor prospects for any substantial relief in the next 48 hours in the eastern part of the country. In the South Atlantic and Middle and East Gulf states there were local rains and thunderstorms Sunday, and in the extreme northwest cooler

weather came from local showers. High temperature continued Sunday in all districts east of the Rocky mountains. At New York the maximum, 98 degrees, broke the record there for June, and at Philadelphia the maximum, 98, equalled the highest temperature previously recorded

FUTURE CAPITAL TO BE KAI-FENG-FU.

Officers of All Nations, With Their Staffs, Are Now at Tien-Tsin Enroute for Their Homes.

Those Claims of the Chinese Merchants Co. Against the United States Government For Loss of Property.

Shanghai, July 1 .- Marquis Tseng has received a dispatch from Sian Fu to the effect that the empress dowager, fearing a trop to capture her, declines to return to Peking, and has notified the grand council that the future capital will be Kai-Feng-Fu, in the province of Ho Nan-

Tien-Tsin, July 1 .- The city of Tien-Tsin is more crowded than ever. Officers of all nations are here en route for their homes and the hotels are placing cots in every available place.

Mr. Denby, who, when the foreign troops arrived, was appointed by the China Merchants Co. to protect their property, says the company, in their claim against the United States government, do not use the word "lost" against the marines, but merely hold them responsible. The greater part of the company's property consisted of rice, which was afterward distributed under orders from the British and American generals to assist those in need. Mr. Denby thinks the company's claim should have been added to the indemnity as legitimate expenditure

Three Boxes of Valuables.

Other Tien-Tsin merchants say the company never had 300,000 taels worth of property here.

It is pointed out that the company stored three boxes of valuables with the chartered bank before the troubles began, and did not withdraw these until October, and that consequently it is quite improbable any jewels were left to be looted. Moreover the place was thoroughly gone through by local looters before the allied forces arrived.

It would be legally impossible to hold any portion of the relieving force responsible for anything but the rice and coal which were used as a military necssity to feed Chinese coolies who were forced to labor, and also those who were without means of livelihood.
